DIRECTOR OF UTILITIES: S. Leiter Pryor reported as follows –

- Water Treatment Plant Upgrade – The general and electrical contractor is continuing with site clean-up and working on finalizing punch list items. The representative from PSI indicated during our job meeting on Monday that they anticipate completing the general contract items by the end of the month. The masonry contractor is still working on repairing the leaks on the back side of the building.
- Sewer Plant Upgrade – The subdivision request has been submitted to the Waynesboro Planning Commission for consideration at their August meeting. Work has begun on the NPDES permit renewal for the main plant.

BOROUGH MANAGER: Jason Stains gave an update on various grants and projects being pursued, including a Bare Root Tree grant for large and small canopy trees, a National Park grant for the Northside Pool project, a change in the scope of work for the Street Light project to include additional areas, and a proposed partnership with WellSpan Health for an emergency services facility (this will be discussed later in the meeting).

Mr. Stains also noted that a large banner has been placed on the front of Borough Hall in an attempt to attract potential employees. There are currently openings at both the Water and Wastewater Plants for Operator/Technician/Trainee. Additional information is available on the Borough's website.

Additionally, Mr. Stains recommended only awarding the Multimodal Street Project (Virginia Avenue) to be discussed later in the meeting, as the bids came in higher than

anticipated. Staff will work with the CDBG consultants and modify budgets to come up with the difference in costs for the W. Third Street and Westview Avenue projects.

OFFICE MANAGER: No report.

FIRE CHIEF: Fire Chief Chris Devers reported that the civil service process continues for the position(s) of Firefighter/EMT. They are still waiting on results from the written portion, but have completed the physical agility and oral portions of the examination. They are hoping to have a final list of eligible candidates by Monday (07/25) and can then proceed with background checks, etc. He is hoping to hire three (3) individuals from this round of testing, who will then attend the Fire Academy beginning in mid-August.

Chief Devers noted that Council members received the monthly reports for May and June, which are tracking much the same as this time last year. EMS continues to be a large portion of the calls and he anticipates that trend will continue to grow. At some point in time, he feels it will be necessary to have a transport vehicle in station. He also added that all the current career firefighters are at the EMT level or above. Chief Devers also noted that there has not been a single day when the WFD couldn't respond due to lack of manpower over the last year. He commended the staff and volunteers for their service and dedication.

B. Property and Public Safety Committee – Councilman Cermak noted that the Committee has been exploring options for an emergency services building for some time. Manager Stains gave a presentation on their potential partnership with WellSpan Health on this endeavor. The Borough has outgrown the current facilities for its Police and Fire Departments and it is their goal to construct new facilities that will meet the emergency service needs of the Borough for the next generation. The property located at 500 E. Main Street (owned by WellSpan Health) would allow for an emergency service campus with the goal of housing Police, Fire and WellSpan Health services. The partnership with WellSpan would be ideal in that it would provide space for WellSpan services and the proximity of emergency services to the hospital campus. The partnership would include an interest in the real estate (lease or other form) for the facility and maintaining the helipad on the property. Next steps include entering into a Letter of Intent to continue to explore the potential partnership, the Borough will continue to refine its needs with its design professional, and WellSpan will identify its space needs.

Roxanna Gapstar and Melissa Dubrow, WellSpan CEO and President respectively, were in attendance to voice their support and enthusiasm for this potential partnership and project. Councilmen and staff also noted their appreciation for WellSpan's collaborative efforts in this project (and hopefully others in the future).

Councilman J. Fleagle added that Mainstreet Waynesboro, Inc. is pursuing the possibility of a Halloween parade.
